

Noor Al-deen Taha Farra

Full Stack Developer | Computer Science Student

Ramallah, Palestine | +972 569 333 386 | nooringby@gmail.com

SUMMARY

Third-year Computer Science student and aspiring Full Stack Developer with solid knowledge of JavaScript, Java, React, Next.js, Node.js, Express.js, MongoDB, Supabase, Git, and GitHub. Passionate about building modern web applications from frontend to backend, working with databases, and creating clean, user-friendly interfaces. Demonstrates strong motivation for continuous learning through practical projects, hands-on development, and software engineering training. Eager to contribute technical skills, problem-solving ability, and a growth mindset to professional development opportunities.

EDUCATION

Institution: Arab American University of Palestine — AAUP
Degree: Bachelor's Degree in Computer Science
Status: Third-Year Student

TRAINING

Title: 50-Hour Software Engineering Course
Organization: Gaza Sky Geeks
Description: Professional training focused on software engineering concepts, development practices, and project-based learning.

PROJECTS

1. Global News Platform

Developed a modern news website called GlobalNews featuring a clean navigation bar and categories such as politics, technology, sports, business, world, and health. The homepage highlights breaking news, trending articles, and a main featured story in a simple and organized layout.

2. Meresa Events

Built an Arabic event-planning website for weddings, engagement parties, and graduation celebrations. The platform presents services through elegant visuals, warm colors, and sections such as home, collection, about us, and request submission to help customers explore and request services easily.

3. Wajehti Platform

Created a simple Arabic dashboard that provides useful daily information for users in Palestine, including quick access to popular websites, a search bar, currency exchange rates against the Israeli shekel, weather information for Ramallah, and daily prayer times. The interface uses a dark blue theme with an Al-Aqsa Mosque background to reflect Palestinian and Islamic identity.
